

61 & 649 CM Framework

Days: 2 CM61-649 Code: CM61-649

This two-day course is for CM Professionals.

MIL-HDBK-61 provides a best practice for implementing a CM Program. EIA-649 is a good standard based on 40 CM principles. Together, these provide an excellent framework for CM. Implementation and compliance can be a daunting task. No worries, this is where our course is different from others you may have seen. We go beyond teaching the content of 61 & 649. During this course you will learn strategic and detailed CM planning for implementing a 61 & 649 compliant CM program. This course also simplifies the daunting tailoring of Annex - A and provides guidance on tailoring 61 & 649 to any environment, including expanding the five CM functions to include common practice today. Both the acquirer and supplier roles are addresses, as well as defense, non-defense, R&D, lab, software, and IT implementation of 649.

YOU WILL LEARN

- √ Structure & content of 61 & 649
- √ The CM Principles and processes
- √ CM assessment & strategic planning
- √ CM requirements mapping and the CMP
- √ The structure & content of 649-1
- √ How to apply 649-1 to your environment
- √ How to complete the Tailoring Worksheet
- √ 61 & 649-1 compliant implementation

Level IV C61-649P Certification

CMTaskware and CM Zip – Go to: www.cmtf.com

Our new and exclusive CM tool, CM Zip, will be available for demonstration to students...it supports our lectures, helps you study for certification exams, and guides you through every-day CM Implementation decisions. Be sure to ask your presenter for details.

61 & 649 CM Framework (MIL-HDBK-61 & EIA-649) & Level IV C61-649P Certification

(2 days – CM61-649)

Australian Dates:

Virtual Session 22 - 23 October 2024

Presented by the Internationally
Acclaimed Speaker

MR. JOHN M. ROBERTS

61 & 649 CM Framework

THE PROGRAM

We go beyond teaching the content of 649 C. During this course you will learn strategic and detailed CM planning for implementing a 649 C compliant CM program. This course also simplifies the daunting tailoring of Annex - A and provides guidance on tailoring 649 to any environment. Both the acquirer and supplier roles are addressed, as well as non-defense, R&D, lab, software, and IT implementation of 649.

TEAM WORKSHOPS

- **Workshop I** – The CM Assessment
- **Workshop II** – Level IV Exam Review

YOUR INSTRUCTOR

Mr. Roberts is recognized by the Commonwealth with their highest accreditation, “Pre-Eminent Advisor (Level 5), for Data and Configuration Management, and Technical – Configuration Management. This course material is the culmination of over 40 years of real-world hands-on CM experience, which includes the Lockheed Skunk Works, a legendary organization that helped define Lean and Agile before those terms were widely used. Mr. Roberts has taught over 1,000 CM courses in over 20 counties.

WHO SHOULD ATTEND

These seminars are designed for the experienced and new CM professional. Attendees also include management and technical personnel working in other fields seeking to apply the benefits of a sound CM process. Especially interested would be those seeking CM certification and those looking for what is new in Configuration Management.

WHAT MAKES THIS CLASS DIFFERENT?

** Attendees will develop a CM Strategic Planning Map into a 61 & 649-1 compliant Configuration Management Requirements Document, CM Implementation Plan and CMP, specifically tailored to their environment.

Days: 2 *CM61-649* Code: CM61-649
